Student Outcomes																
1. Analyze a complex computing problem and to apply principles of computing and other relevant disciplines to identify solutions						X			X		XA	XA			XA	XA
2. Design, implement, and evaluate a computing-based solution to meet a given set of computing requirements in the context of the program's discipline						X			XA		XA		X	X	XA	XA
3. Communicate effectively in a variety of professional contexts	X						XA				XA				XA	XA
4. Recognize professional responsibilities and make informed judgments in computing practice based on legal and ethical principles	X						XA									
5. Function effectively as a member or leader of a team engaged in activities appropriate to the program's discipline	X										XA		XA	XA	X	
6. Apply computer science theory and software development fundamentals to produce computing-based solutions.						X			X	XA	XA		X	X	XA	XA

An "X" denotes courses in which students have the opportunity to learn the outcome.

An "A" denotes courses in which student performance is used for program level assessment of the outcome.
