Spring 2020 | T/Th 2:30-3:45 | Kedzie 106
Dr. Douglas N. Dow

From Botticelli to Brooklyn traces the history of western art from the origins of the Renaissance in the 1300s to the emergence of the Modern world at the end of the nineteenth century. Along the way we discuss the art of the Baroque, the Enlightenment, and the proliferation of artistic movements that lead up to modernity (Romanticism, Realism, Impressionism).

An introductory survey, this course is built around resources that are freely available on the internet so no textbook is required. ART 196 uses the online Top Hat interactive platform for in-class presentations, quizzes, and exams (subscription required).
