WHAT IS CARGILL FELLOWS?

The program creates a supportive environment to prepare and empower Kansas State University students to exercise leadership in their communities and global workplaces. Housed in the Staley School of Leadership Studies, Cargill Fellows practice leadership skills necessary to work confidently, cross-culturally, and thrive in an era of complex and continual change.

The program provides students with the preparation to begin their career with a unique advantage beyond their technical preparation. Their exposure to and practice with skills such as adapting to change, engaging in diverse environments, and critical thinking cultivates professional competencies that will prepare them for a successful launch into industry.

PROGRAM COMPONENTS:

- $1000 scholarship
- Guaranteed interview for an internship opportunity at Cargill
- Participation in monthly one-on-one leadership coaching with a Cargill mentor coach
- Unique and exclusive networking opportunities with Cargill professionals
- Site visits to area Cargill facilities, headquarters, plants, etc.
- Cohort enrichment activities including leadership case studies, diversity and inclusion seminars, retreats, etc.
