Student Developer

DEPARTMENT: Division of Information Technology

The Division of Information Technology is hiring part-time student developers. Students will work with a team developing and supporting JAVA, .NET, and Python web applications in the Cloud (AWS and VMC). Students will participate in the complete life cycle, from initial requirements, design, and development to maintenance and customer support. A computer and equipment will be provided as needed.

The position's exact duties and responsibilities will vary based on the applicant's skills and aptitude. Our students complete an on-boarding program and receive mentoring from full-time developers to get up to speed with our development practices and acquire application-specific domain knowledge.

Hours and Location:
You set your schedule—options for hybrid and remote work. You must have at least some availability between 8 a.m. and 5 p.m., Monday-Friday. Starting wages are $11.00/hr, but could be greater based on experience.

Required Qualifications:
Be a current undergraduate in a Technology-related field (MIS, CIS, etc.). Students must have strong problem-solving skills and some development experience. Candidates must be motivated, capable of learning new skills quickly, self-directed, able to work at least 15 hours a week, and willing to devote at least a year to the position, including summers. We encourage first-year students to apply.

Preferred qualifications:
• Experience with Java, .NET, and Python application development.
• Experience supporting applications in AWS.
• Experience with Ajax, JavaScript, and standards-based web design.
• Applicants with one or more years of employment potential.
• Ability to work 40 hours per week over the summer and breaks if taking three or fewer hours of classes.
• Ability to work up to 30 hours per week during the academic year.

APPLICATIONS: This position is open until filled. Please go to the following link to apply. https://jobapp.ome.k-state.edu/JobApp/student/applicant.do
