

Hiring: S&CC Graduate or Undergraduate Research Assistant Worker

Dr. Hyung Jin Kim, an associate professor in the Department of Landscape Architecture and Regional & Community Planning (LARCP), is hiring student research assistants who can support an interdisciplinary NSF project. We are looking for a student who is interested in learning and participating in a community-engaged research project on smart and connected communities (S&CC) for disaster resilience. You will be working alongside an interdisciplinary research team of faculty and colleagues who are from K-State's Computer Science and Electrical and Computer Engineering. For more details about this project, please check out this link:

https://www.nsf.gov/awardsearch/showAward?AWD_ID=1952206&HistoricalAwards=false

Roles

The graduate student will be responsible for:

- Coordinating and facilitating the planning, implementation and operation multi-state community workshops that will be held in spring 2021.
- Assisting in project management by scheduling and facilitating research participation and tasks.
- Facilitating and assisting in survey administration, data collection, data analysis and management.

Skills

- Good written and verbal communication skills
- Good project management and organizational skills
- Experience with survey research methods (survey data entry, coding, editing, and management)
- Other preferred skills: Experience with graphic design tool (e.g., Adobe Photoshop, Illustrator), website design and management, statistical analysis, and/or GIS mapping and analysis.

Compensation and Hours

Hourly wage of \$10-\$20. The position will start in November with 10-20 hours per week time commitment.

Apply

Please send an email to: hyungjin@ksu.edu with a subject line: S&CC Research Assistant, and include:

- resume or cv
- a writing sample (e.g., a paper written earlier for another course)
- weekly schedule of availability
